

ABSTRACT

A healthful pillow with multiple functions includes a pillow body and a massage pad. The pillow body is provided with a permanent magnet and the massage pad is provided
5 with granule pieces. Each of the granule pieces at the periphery thereof has a retaining band for being fixed to the pillow body. The granule pieces of the massage pad can press acupuncture points of the head to attain an effect of finger pressing massage and the permanent magnet can
10 generate magnetism to attain an effect of stimulating acupuncture points of the head.
